School of Electronics &communication Engineering
Play with Circuits
EventID:ECET1604

TASK:
There are three rounds in this contest Participants have to complete the task given to qualify for the next round.

CONTENTS:
Event will be performed in THREE ROUNDS

FIRST ROUND:
We will show a simple circuit for a fraction of time with the help of projector and each group will require to draw the same circuit on paper, in a given time limit.

SECOND ROUND:
The selected participants in the first round will be paired in a group. Every group will require to make the given circuit with the help of available hardware, and have to find out the proper output.

FINAL ROUND:
Selected group will require to draw the given circuit, and to show the proper output on MULTISIM software.

RULES:
1. Every round will be time limited.
2. If any group is not familiar with MULTISIM then a team will be there to brief them.
